United Nations Legal Order American Society of International Law,1995 The purpose of these volumes is to examine, explain and appraise contributions made by the United Nations system to international law and the law-creating process. The work assesses the effect UN institutions have had on the law-making process, and the extent to which that law has been accepted by and evidenced in contemporary state practice. It is divided into three main parts. The first examines the practical as well as conceptual aspects of the UN system as a source of law. The second part deals with different fields of activity which have become the subjects of legal rules and processes. Areas covered include human rights, use of force and economic relations. In addition, topics that have not previously been examined in such a comprehensive manner, such as shipping, aviation, and private international law, are also discussed. The third part covers the internal law of the UN system - international civil services and financial contributions.

The Law of EU External Relations Pieter Jan Kuijper,Jan Wouters,Frank Hoffmeister,Geert de Baere,Thomas Ramopoulos,2013-09-05 The European Union has established itself as a significant international legal actor. Understanding the EU's actions on the international plane requires an understanding of its constantly evolving constitutional and legal

framework. This book presents the law of EU external relations in a concise and accessible manner for students, practitioners, and academics in the field. It combines chapters on the general basis of the Union's external action and its relation to international law with chapters which further explore the law and practice of the EU in the specialized fields of external action such as the common commercial policy, development cooperation, cooperation with third countries, humanitarian aid, the enlargement and neighbourhood policies, the external environmental policy, and the common foreign and security policy, as well as a chapter specifically dedicated to EU sanctions and countermeasures. Carefully selected primary documents are accompanied with analytic commentary on the issues they raise and their significance for the overall structure of EU external relations law. The primary materials selected include many important legal documents that are hard to find elsewhere but give a vital insight into the operation of EU external relations law in practice.

Civil Wars of the World [2 volumes] Karl DeRouen Jr., Uk Heo, 2007-05-10 This unique two-volume reference is the most authoritative, up-to-date resource available for information and data on the most volatile civil wars around the globe since World War II. At a time when historians are devoting more and more research to conflicts within nations, *Civil Wars of the World: Major Conflicts since World War II* is an invaluable addition to the available resources. In two volumes, it ranges around the globe to cover the most volatile and deadly civil wars of the past 60 years, including the bloody impasses in the Middle East; devastating tribal warfare in Africa; Cold War-fueled conflicts in Eastern Europe and Asia; the seemingly unbreakable cycle of rebellion and repression in some regions of Latin America; and more. *Civil Wars of the World* moves country by country to describe the causes, course, and consequences of internal conflicts within each nation. Coverage includes the historical background of each country, geographic and economic factors, descriptions of rebel groups and governments (e.g., regime type, size of military, capacity), terrorism, foreign and/or intergovernmental organization (IGO) intervention (UN, foreign support for rebels), foreign aid, and prospects for peace.

Yearbook of the United Nations 2014 United Nations, 2019-10-28 With its comprehensive coverage of political and security matters, human rights issues, economic and social questions, legal issues, and administrative and budgetary matters, the *Yearbook of the United Nations* stands as the authoritative reference work on the annual activities and concerns of the Organization. Fully indexed, the *Yearbook* includes all major General Assembly, Security Council and Economic and Social Council resolutions and decisions, uniquely placing them in a narrative context of United Nations consideration, deliberation and action. This sixty-eighth volume presents the work of the United Nations in dealing with recurring conflicts with severe humanitarian consequences including in the Syrian Arab Republic, where more than 12 million people were in need of basic food, clothing and shelter. The volume also highlights the Organization's rapid response to an escalatory global health emergency—the Ebola virus disease outbreak across West Africa. It documents the Organization's coordination of

policy discussions to finalize a global sustainable development agenda, with the security of future generations as the core concern; and its efforts to rebuild societies emerging from conflict while keeping the fragile peace in other places. It further details the entry into force of the landmark Arms Trade Treaty, the missile downing of a passenger airliner in the midst of a geopolitical crisis in eastern Ukraine, and securing international human rights and humanitarian law and prosecuting abusers.
