Photoshop Elements 4 One-on-one Deke McClelland, Galen Fott, 2005 Photoshop Elements 4 One-on-One marks a landmark in computer publishing. In addition to offering 12 lessons of project-based tutorials with all sample files included, each lesson starts with a video introduction, hosted by the author himself, Deke McClelland. And these are no ordinary videos. Produced by Adobe's official video training partner, Total Training, each video measures 960 by 540 pixels and plays at 30 frames per second, with no interlacing. That's a play rate of 15.5 million pixels per second, making this the first computer publication to include high-definition video, playable on any modern PC with a DVD-ROM drive. The picture is so crystal clear, it's like watching the world-reknowned expert work right along with you. In addition to the video -- all new recordings created exclusively for this title -- the book has been completely revamped for Photoshop Elements 4. Inside the full-color pages are new exercises devoted to color-correcting skin tones, auto-tagging images with faces, isolating foreground subjects, extracting people and objects from their backgrounds, creating custom slide shows, correcting red-eye, and sharing images online. Every bit as wildly ambitious and brass-tacks practical as the best-selling image editor itself, Photoshop Elements 4 One-on-One will have you gasping with amazement at your own creations. Deke puts the magic of digital imaging squarely where it belongs -- in your hands.

Scripture and Interpretation Ariel Feldman, Liora Goldman, 2014-11-10 The discovery of the Dead Sea Scrolls more than sixty years ago has revealed a wealth of literary compositions which rework the Hebrew Bible in various ways. This genre seems to have been a popular literary form in ancient Judaism literature. However, the Qumran texts of this type are particularly interesting for they offer for the first time a large sample of such compositions in their original languages, Hebrew and Aramaic. Since the rewritten Bible texts do not use the particular style and nomenclature specific to the literature produced by the Qumran community. Many of these texts are unknown from any other sources, and have been

published only during the last two decades. They therefore became the object of intense scholarly study. However, most the attention has been directed to the longer specimens, such as the Hebrew Book of Jubilees and the Aramaic Genesis Apocryphon. The present volume addresses the less known and poorly studied pieces, a group of eleven small Hebrew texts that rework the Hebrew Bible. It provides fresh editions, translations and detailed commentaries for each one. The volume thus places these texts within the larger context of the Qumran library, aiming at completing the data about the rewritten Bible.

Beginning Microsoft Word Business Documents James J. Marshall, 2007-02-01 Even relatively experienced users of Microsoft Word are often frustrated when trying to create specialized documents such as newsletters, brochures, grant applications and proposals. While templates are available on the Internet, these rarely include instructions or show how to modify and customize the template. This book walks the reader through the creation of new business documents and the modification of templates, building on included samples. The reader gains a clear grasp of where to start, what to include, why charts are helpful - and how to create them - and the best ways to use fonts to show clear organization.

Building upon the success of the inaugural IEEE PCM 2000 in Sydney in December 2000, the second PCM again brought together the researchers, developers, practitioners, and educators of multimedia in the Pacific area. Theoretical breakthroughs and practical systems were presented at this conference, thanks to the sponsorship by the IEEE Circuit and Systems Society, IEEE Signal Processing Society, China Computer Foundation, China Society of Image and Graphics, National Natural Science Foundation of China, Tsinghua University, and Microsoft Research, China. IEEE PCM 2001 featured a comprehensive program including keynote talks, regular paper presentations, posters, demos, and special sessions. We received 244 papers and accepted only 104 of them as regular papers, and 53 as poster papers. Our special session chairs, Shin'ichi Satoh and Mohan Kankanhalli, organized 6 special sessions. We acknowledge the great contribution from our program committee members and paper reviewers who spent many hours reviewing submitted papers and providing valuable comments for the authors. The conference would not have been successful without the help of so many people. We greatly appreciated the support of our honorary chairs: Prof. Sun Yuan Kung of Princeton University, Dr. Ya Qin Zhang of Microsoft Research China, and Prof.
