The Insect Crisis: The Fall of the Tiny Empires That Run the World Oliver Milman, 2022-03-01 A devastating examination of how collapsing insect populations worldwide threaten everything from wild birds to the food on our plate. From ants scurrying under leaf litter to bees able to fly higher than Mount Kilimanjaro, insects are everywhere. Three out of every four of our planet's known animal species are insects. In *The Insect Crisis*, acclaimed journalist Oliver Milman dives into the torrent of recent evidence that suggests this kaleidoscopic group of creatures is suffering the greatest existential crisis in its remarkable 400-million-year history. What is causing the collapse of the insect world? Why does this alarming decline pose such a threat to us? And what can be done to stem the loss of the miniature empires that hold aloft life as we know it? With urgency and great clarity, Milman explores this hidden emergency, arguing that its consequences could even rival climate change. He joins the scientists tracking the decline of insect populations across the globe, including the soaring mountains of Mexico that host an epic, yet dwindling, migration of monarch butterflies; the verdant countryside of England that has been emptied of insect life; the gargantuan fields of U.S. agriculture that have proved a killing ground for bees; and an offbeat experiment in Denmark that shows there aren't that many bugs splattering into your car windshield these days. These losses not only further tear at the tapestry of life on our degraded planet; they imperil everything we hold dear, from the food on our supermarket shelves to the medicines in our cabinets to the riot of nature that thrills and enlivens us. Even insects we may dread, including the hated cockroach, or the stinging wasp, play crucial ecological roles, and their decline would profoundly shape our own story. By connecting butterfly and bee, moth and beetle from across the globe, the full scope of loss renders a portrait of a crisis that threatens to upend the workings of our collective history. Part warning, part celebration of the incredible variety of insects, *The Insect Crisis* is a wake-up call for us all.

River of Ink Paul M.M. Cooper, 2016-01-26 In thirteenth-century Sri Lanka, Asanka, poet to the king, lives a life of luxury, enjoying courtly life and a sweet, furtive love affair with a palace servant, a village girl he is teaching to write. But when Magha, a prince from the mainland, usurps the throne, Asanka's role as court poet dramatically alters. Magha is a cruel and calculating king--and yet, a lover of poetry--and he commissions Asanka to translate a holy Sanskrit epic into the Tamil language spoken by his recently acquired subjects. The poem will be an olive branch--a symbol of unity between the two cultures. But in different languages, in different contexts, meaning can become slippery. First inadvertently, then deliberately and dangerously, Asanka's version of the epic, centered on the killing of an unjust ruler, inspires and arouses the oppressed people of the land. Asanka must juggle the capricious demands of a king with the growing demands of his own political consciousness--and his heart--if he wishes to survive and imagine a future with the woman he loves. The first novel from a remarkable young writer, *River of Ink* is a powerful historical tale set in the shadow of oppression--one with deep allegorical resonances in any time--celebrating the triumph of literature and love.

Maze of the Blue Medusa Zak Sabbath,Patrick Stuart,2016-06-30 Infinite broken night. Milky alien moons. Wavering demons of gold. Held in this jail of immortal threats are three perfect sisters...Maze of the Blue Medusa is a dungeon. Maze of the Blue Medusa is art. Maze of the Blue Medusa works with your favorite fantasy tabletop RPGs. And Maze of the Blue Medusa is the madly innovative game book from the award-winning Zak Sabbath of A Red & Pleasant Land and Patrick Stuart of Deep Carbon Observatory. Lethal gardens, soul-rending art galleries, infernal machines--Maze of the Blue Medusa

reads like the poetic nightmare of civilizations rotted to time, and plays like a puzzle-box built from risk and weird spectacle. Praise for Zak Sabbath: Zak is not just imaginative, he's bold. Which means that while he recognizes the value of fantasy traditions, he doesn't hesitate for a moment to throw out anything that's become tired or dull.-- Monte Cook, author of Numenera Praise for Patrick Stuart's Fire on the Velvet Horizon: Superpositioning with strange panache, Velvet Horizon is an (outstanding) indie role-playing-game supplement, and an (outstanding) example of experimental quasi-/meta-/sur-/kata-fiction. Also a work of art. Easily one of my standout books of 2015.-- China Miéville, author of Perdido Street Station

Making Sense of Muslim Fundamentalisms Nimrod Hurvitz, Eli Alshech, 2020-06-04 Studying Muslim fundamentalisms, this book compares key movements, examining their commonalities, differences, and intricate relations, as well as their achievements and failures. Muslim fundamentalisms have the sympathy of approximately half of the Muslim population in the world. Yet, they are divided among themselves and are in a constant state of controversy. The research dwells on the leading fundamentalist movements, such as the Muslim Brothers, Tablighi-Jama'at, al-Qaeda, and ISIS, and illustrates how differently they think about the West and its culture, democracy, and women's presence in the public sphere. By identifying these trends, and studying them comparatively, the book enables the interested reader to make sense of the plethora of fundamentalist movements, which are otherwise lumped together by the media and are barely discernible for the reader. Whereas most studies of Muslim fundamentalism focus on organizational or militant actions that the movements perform, this study concentrates on their efforts to Islamize society through everyday life in a peaceful manner. Identifying the different strands of Muslim fundamentalisms, the book will be a key resource to a wide range of readers including researchers and students interested in politics, religious, Islamic and Middle Eastern Studies.
