Grown and Flown Lisa Heffernan, Mary Dell Harrington, 2019-09-03 PARENTING NEVER ENDS. From the founders of the #1 site for parents of teens and young adults comes an essential guide for building strong relationships with your teens and preparing them to successfully launch into adulthood The high school and college years: an extended roller coaster of academics, friends, first loves, first break-ups, driver's ed, jobs, and everything in between. Kids are constantly changing and how we parent them must change, too. But how do we stay close as a family as our lives move apart? Enter the co-founders of Grown and Flown, Lisa Heffernan and Mary Dell Harrington. In the midst of guiding their own kids through this transition, they launched what has become the largest website and online community for parents of fifteen to twenty-five year olds. Now they've compiled new takeaways and fresh insights from all that they've learned into this handy, must-have guide. Grown and Flown is a one-stop resource for parenting teenagers, leading up to—and through—high school and those first years of independence. It covers everything from the monumental (how to let your kids go) to the mundane (how to shop for a dorm room). Organized by topic—such as academics, anxiety and mental health, college life—it features a combination of stories, advice from professionals, and practical sidebars. Consider this your parenting lifeline: an easy-to-use manual that offers support and perspective. Grown and Flown is required reading for anyone looking to raise an adult with whom you have an enduring, profound connection.

Human Work in the Age of Smart Machines Jamie Merisotis, 2020-10-06 A public policy leader addresses how

artificial intelligence is transforming the future of labor—and what we can do to protect the role of workers. As computer technology advances with dizzying speed, human workers face an ever-increasing threat of obsolescence. In *Human Work in the Age of Smart Machines*, Jamie Merisotis argues that we can—and must—rise to this challenge by preparing to work alongside smart machines doing that which only humans can: thinking critically, reasoning ethically, interacting interpersonally, and serving others with empathy. The president and CEO of Lumina Foundation, Merisotis offers a roadmap for the large-scale, radical changes we must make in order to find abundant and meaningful work for ourselves in the 21st century. His vision centers on developing our unique capabilities as humans through learning opportunities that deliver fair results and offer a broad range of credentials. By challenging long-held assumptions and expanding our concept of work, Merisotis argues that we can harness the population's potential, encourage a deeper sense of community, and erase a centuries-long system of inequality.

Her Best-Kept Secret Gabrielle Glaser, 2013-07-02 For readers of *Quit Like a Woman*, this “engaging account of women and drink, [cites] fascinating studies about modern stressors...and evidence that some problem drinkers can learn moderation....Bound to stir controversy” (People). In *Her Best-Kept Secret*, journalist Gabrielle Glaser uncovers a hidden-in-plain-sight drinking epidemic. Using “investigative rigor and thoughtful analysis” (The Boston Globe), Glaser is the first to document that American women are drinking more often than ever and in ever-larger quantities in this “substantial book, interested in hard facts and nuance rather than hand-wringing” (The New York Times Book Review). She shows that contrary to the impression offered on reality TV, young women alone aren’t driving these statistics—their moms and grandmothers are, too. But Glaser doesn’t wag a finger. Instead, in a funny and tender voice, Glaser looks at the roots of the problem, explores the strange history of women and alcohol in America, drills into the emerging and counterintuitive science about that relationship, and asks: Are women getting the help they need? Is it possible to return from beyond the sipping point and develop a healthy relationship with the bottle? Glaser reveals that, for many women, joining Alcoholics Anonymous is not the answer—it is part of the problem. She shows that as scientists and health professionals learn more about women’s particular reactions to alcohol, they are coming up with new and more effective approaches to excessive drinking. In that sense, Glaser offers modern solutions to a very modern problem.
