The Dual Veil Niamh Clune, 2019-05-07 Barry Brown's mother wished for a different child. Red, unruly hair! A stammer! Non-stop fidgeting! A weird birthmark! To add to all her woes, the silly boy cherished a ridiculous desire to learn magic! She couldn't remember how Mr Foggitt, a most unusual teacher of the real arcane magick arts, encountered in a dusty old shop in London, had persuaded her to allow Barry to have lessons. Barry loved Mr Foggitt's weaving of wondrous tales of Magius, the greatest of all wizards; and the man who became a bear; and the mysterious Dual Veil, a great wall of mist that separated the human world from Elfenndorr, the world inhabited by marvellous and scary things that humans thought were mere fantasies. Little did Barry know that when Gwyddon, Mr Foggitt's flame-red owl, flew away, she had delivered a message to Teag-of-the-Laurel (elf lord of Tylwyth Teg, a district of Elfenndorr): The dragon stirs in the long-awaited boy, and the girl we have yet to find. Barry soon discovered that all those tales told by Mr Foggitt were true. Along with school-friend, Maybellyne, he was a child of prophecy destined to travel through the mists of the Dual Veil into Elfenndorr. Only he and Maybellyne could stop Dredammorg, the darkest of all wizards, from melting the glue that holds the worlds together.

The Culture of Efficiency Sharon Kleinman, 2009 The Culture of Efficiency: Technology in Everyday Life reveals how people are managing, exploiting, and resisting technological developments in the digital age. In this unique volume, distinguished experts from a broad range of fields candidly show how the latest technologies are being used to transform and control nitty-gritty aspects of life from conception onward and the surprising benefits and consequences. Bold and provocative, The Culture of Efficiency is for everyone concerned with efficiency and effectiveness. It offers fresh insights about social trends, practical suggestions for improving everyday life, and vital forecasts about the future of work and leisure. This is essential reading for researchers, professionals, and students in communication, sociology, education, anthropology, psychology, organizational science, operations management, marketing, gender studies, environmental studies, American studies, healthcare, and social policy. Overall, the volume offers a rich interpretation of the meaning of living in a culture of efficiency.

The Smarthome Book Andrew Howe, Technology is playing an increasingly more important part in our homes as well as our day to day lives. Get this simple to read guide to be introduced to structured wiring and smarthome concepts. It will not

only take you through the requirements necessary to implement these upgrades but also provide a long list of inspirational and useful ideas to help make your smarthome upgrade not only a reality but fun! Through the chapters of this book we cover the various topics and components which will provide an insight into upgrading your home and making it smart. Considering a renovation or a new build? Then look no further, as this will detail the basics of home cinema, whole house audio and video systems, security with remote monitoring, energy efficiency and how best to set up your data network, all wrapped up in an easy to read format, with easily laid out diagrams and a glossary of terms and links at the end to further your quest. Consider how long people spend deciding what flooring to lay down or what tiles to place in the kitchen or bathroom. Now consider how long people spend on what type of cabling will allow them to have that cool minimalist look in their renovation! Those hidden wires, the intelligent lighting, the surround sound, the energy efficient heating. Read this book before speaking to your electrician or installer. Save yourself time and money by being prepared.

The Off Limits Rule Sarah Adams,2020-12-13 I have found rock bottom. It's here, moving in with my older brother because I'm too broke to afford to live on my own. It's okay though, because we've always been close and I think I'm going to have fun living with him again.That is until I meet Cooper...Turns out, my brother has very strong opinions on the idea of me dating his best friend and is dead set against it. According to him, Cooper is everything I should stay away from: flirtatious, adventurous, non-committal, and freaking hot. (I added that last part because I feel like you need the whole picture.) My brother is right-I should stay away from Cooper James and his pretty blue eyes. He's the opposite of what I need right now.Nah-who am I kidding? I'm going for it.The Off Limits Rule is a closed door romance, perfect for readers who love lots of sizzle but no explicit content.

Influence Maddy Dychtwald,2010-05-04 In the United States and in very many nations around the world, women are on the cusp of new financial power -- and evidence suggests that women will use this power to improve society in ways we can only begin to imagine. Through candid interviews and lively reporting, and with exclusive research, Dychtwald reveals a huge cultural transformation that is about to occur -- a true tipping point -- after which more children may have quality health care and education, workplaces may be more responsive to families, men may experience new freedoms and opportunities to pursue more meaningful careers, and more corporations and nations will be led by women, and they will thrive. Dychtwald and Larson give us a sneak peek at the world turned right-side-up by women. To read this book is to prepare oneself for an altered -- and improved -- way of life.

Fans Called Him "Turkey," I Called Him Dad Rosilyn Stearnes-Brown, 2023-02-09 Baseball Hall of Famer Norman Thomas Turkey Stearnes (1901-1979) batted more than .400 three times, led the Negro Leagues in home runs seven times and holds the all-time Negro Leagues record for career home runs. Despite his legendary achievements on the field, Stearnes worked off-seasons in Detroit's auto plants, including one owned by Walter Briggs, who also owned the Detroit Tigers--a team Stearnes couldn't play for because he was black. Written by his eldest daughter, this first biography of Turkey Stearnes intimately recounts his life and career and gives overdue recognition to one of the greatest all-around players in the history of baseball.

Industrialization and Political Activism: 1861 to 1899 Elizabeth Purdy, 2020-02-01 Written in engaging and accessible prose by experts in the field, this reference introduces readers to the hidden history of women in America from 1861 to 1899, bringing their achievements to light and helping them gain the recognition they deserve. Chapters include: Arts and Literature Business Education Entertainment Family Health Politics Science and Medicine Society.

Outposts on the Frontier Jay Chladek, 2017-08-01 The International Space Station (ISS) is the largest man-made structure to orbit Earth and has been conducting research for close to a decade and a half. Yet it is only the latest in a long line of space stations and laboratories that have flown in orbit since the early 1970s. The histories of these earlier programs have been all but forgotten as the public focused on other, higher-profile adventures such as the Apollo moon landings. A vast trove of stories filled with excitement, danger, humor, sadness, failure, and success, *Outposts on the Frontier* reveals how the Soviets and the Americans combined strengths to build space stations over the past fifty years. At the heart of these scientific advances are people of both greatness and modesty. Jay Chladek documents the historical tapestry of the people, the early attempts at space station programs, and how astronauts and engineers have contributed to and shaped the ISS in surprising ways. *Outposts on the Frontier* delves into the intriguing stories behind the USAF Manned Orbiting Laboratory, the Almaz and Salyut programs, Skylab, the Apollo-Soyuz Test Project, Spacelab, Mir station, Spacehab, and the ISS and gives past-due attention to Vladimir Chelomei, the Russian designer whose influence in space station development is as significant as Sergei Korolev's in rocketry. *Outposts on the Frontier* is an informative and dynamic history of humankind's first outposts on the frontier of space. Who Supports the Family? Jean L. Potuchek, 1997 In a dual-earner marriage, why is a wife's paid employment much less likely to be defined as breadwinning than her husband's? This book uses data from a study of 153 dual-earner couples to examine the allocation of responsibility for breadwinning and the social construction of gender in their marriages. The author carefully distinguishes breadwinning from paid employment and uses the insights of gender construction theory to illuminate that distinction. Gender construction theory sees gender as a system of social relations that is continually and actively created in the social interactions of daily life. Using both quantitative and qualitative analyses, this book demonstrates that despite the prevalence of dual-earner marriages, breadwinning is still widely used as a boundary that creates gender by distinguishing the meaning of men's employment from that of women's. The author argues that though the extent to which breadwinning is used as a gender boundary is strongly influenced by adult experiences and circumstances and by the material conditions of couples' lives, it is not determined by these factors. Rather, the meanings attached to husbands' and wives' employment are actively constructed through a process of negotiation that is characterized by both contention and cooperation. Moreover, this is a highly dynamic process; the breadwinning boundary is renegotiated and reconstructed in response to disagreement, to changing circumstances, and to shifts in other, related gender boundaries. Through its detailed analysis of breadwinning and its development of gender boundaries as a theoretical concept, this book provides new insight into gender relations and makes a contribution to gender construction theory. At the same time, it is engagingly written and provides moving glimpses of the real-life dilemmas of dual-earner couples.

On Self-Harm, Narcissism, Atonement, and the Vulnerable Christ David Vincent Meconi, 2019-11-14 On Self-Harm, Narcissism, Atonement and the Vulnerable Christ explores St. Augustine of Hippo's theology of sin, described as various forms of self-loathing and self-destruction, in addition to sin's antidote, a vulnerable relationship with the crucified Christ. Incorporating recent thinking on self-destruction and self-loathing into his reading of Augustine, David Vincent Meconi explores why we are not only allured by sin, but will actually destroy ourselves to attain it, even when we are all too well aware that this sin will bring us no true, lasting pleasure. Meconi traces the phenomena of self-destruction and self-loathing from Augustine to today. In particular, he focuses in on how self-love can turn to self-harm, and the need to provide salvage for such woundedness by surrendering to Christ, showing how Augustine's theology of sin and salvation is still crucially applicable in contemporary life and societies.

Creating Equality at Home Francine M. Deutsch, Ruth A. Gaunt, 2020-06-18 Stories of couples around the world whose everyday decisions about housework, childcare, and paid work achieve equality at home.
